Dear Arts Coordinator,

Barefoot Ceramics would like to invite you to use our facilities and skilled staff to complement your pupils' learning experience.

We are a ceramic studio with a workshop and ceramic café, open to the public. The retail side of the business is a 'paint your own' pottery shop, located at 27 Charles Street in Newport. Here all ages can spend a few hours relaxing with friends, family, or by themselves, creating their very own ceramic masterpiece. We then glaze, fire and finish the piece ready for collection.

The second part of our business is to bring ceramics and a love of creative art to the local community. This involves groups coming to us or us going out to groups.

How can we help you?

We will provide cross curricular activities which take in elements from all sorts of subjects - such as art, history, design & technology and even maths. At the end of the session the class members will have produced a stunning piece of ceramic art that can either be sent home with the children, displayed at school or sold on to raise funds. If you are interested in the sound of this, or just want more information please contact us.

We will come to you and take a single class, or club for about 2 hours. The paints, bisque (ceramic items), brushes, palettes, water containers can all be provided by us but we ask you to provide the basic setting (table coverings, children's aprons, et cetera). After the session we take all the painted ceramics away to be glazed and fired. Items are normally returned the following week.

Amongst our staff at Barefoot we have a fully qualified primary teacher and combined experience of running children's activity clubs spanning over 20 years (predominantly Cubs and Scouts in mixed sex groups).

Further information can be obtained from our website, www.barefoot-ceramics.com, just click on the *school* link at the top right hand side of the page.

We believe we offer a creative, educational supplement to the student's learning and would love to chat over some ideas with you. Why not come and have a free cappuccino with us while we discuss your needs.

Thank you for your time,

Fiona Jefferies
